From passage to bifold designs, your selection is wide open

Made from molded high-density fiberboard, CraftMaster doors resist shrinking, swelling, cracking and joint separation.

Specify the Door That Makes the Grade

- All doors are available primed and ready to paint.
- CraftMaster doors can be specified in 1³/₈" and 1³/₄" thicknesses.
- Most 1³/₄" thick CraftMaster doors can be manufactured to meet 20-, 45- and 60- minute fire ratings as per Warnock Hersey specifications. 

Make a Solid Choice

- For the heft and sound-deadening properties of solid wood, specify solid core construction.
- Most CraftMaster doors can be specified for either hollow or solid core construction and with either finger-joint or MDF stiles and rails.

Tough on the Inside

- A CraftMaster door facing is made from an engineered wood fiber mat that is molded under intense heat and pressure into an 1/8" (3.2mm) thick sheet of high-density fiberboard. The result assures consistent quality from door to door, room to room, and home to home.

Environmentally Responsible

- Due to their physical composition, CraftMaster molded door facings are not subject to the California Air Resource Board's Airborne Toxic Control Measure 93120 (ATCM). This measure enforces limits on formaldehyde emissions. If they were subject to the ATCM, CraftMaster door facings would meet the specification for the designation "ultra low formaldehyde emitter." CraftMaster door facings have demonstrated formaldehyde emissions equivalent to wood through repeated testing by the Composite Panel Association (CPA), a third party certifier for the CARB ATCM rule.
- No old growth timber is harvested for the manufacture of CraftMaster designs. Instead, by-products from sawmill operations are used to convert wood chip waste into designs of true beauty.
- CraftMaster molded door facings contain a minimum of 63% by weight, pre-consumer recycled content. This is certified by Scientific Certification Systems, certificate number SCS-MC-01801.
- CraftMaster molded door facings contain a minimum of 50% by weight, pre-consumer recycled content.
- CMI uses a low VOC primer, among the most environmentally friendly paint products on the market.

Rich texture, in a variety of designs

Colonist®

Pine wood grain texture or smooth finish

- Distinguished by more than a quarter century of precision craftsmanship and design, this classic design rises above all imitators.
- Available in 6'8", 7'0" and 8'0" passage and bifold sizes.

Coventry®

Oak wood grain texture

- A classic design that manages to have both a unique character and a universal appeal.
- Available in standard 6'8" passage and bifold sizes.
- Available texture or smooth.

Carmelle®

Oak wood grain texture

- Arched tops lend a storybook flair to this four-panel classic.
- Available in standard 6'8" passage and bifold sizes.

Carmelle®

Oak wood grain texture

- Available in standard 6'8" passage and bifold sizes.

Clermont®

Oak wood grain texture

- A simple, straightforward design versatile enough to contribute to any décor.
- Available in standard 6'8" passage and bifold sizes.

Classique®

Oak wood grain texture

- Bold, sleek, stylish, this door brings chic to any room.
- Available in standard 6'8" passage and bifold sizes.

Smooth finish, clean designs

Crossmore™

Smooth finish

- Created through advanced panel technology to create the only truly authentic molded flat panel door.
- Reflects traditional Craftsman architecture and beautifully simplistic Mission-style, yet its modern design is equally popular today.
- Available in 68" and 70" passage sizes.

Conmore®

Elegant smooth finish.

- The only truly authentic molded, flat 5-panel door.
- Available in standard 6'8" passage and bifold sizes.

Carrara®

Smooth finish

- Austere yet welcoming, this uncluttered design has limitless appeal.
- Available in 68", 70" and 80" passage and bifold sizes.

Caiman®

Smooth finish

- A two-panel, true arch design that's the picture of elegant simplicity.
- Available in 68", 70" and 80" passage and bifold sizes.

Corvado®

Smooth finish

- The warmth and richness of a traditional plank door with a distinctive groove and modified sticking pattern for added detail.
- Covered by U.S. Patent D541947.
- Available in 68", 70" and 80" passage and bifold sizes.

Cashal™

Smooth finish

- An arch top, two-panel plank door that brings character and charm to any room.
- Available in 68", 70" and 80" passage and bifold sizes.

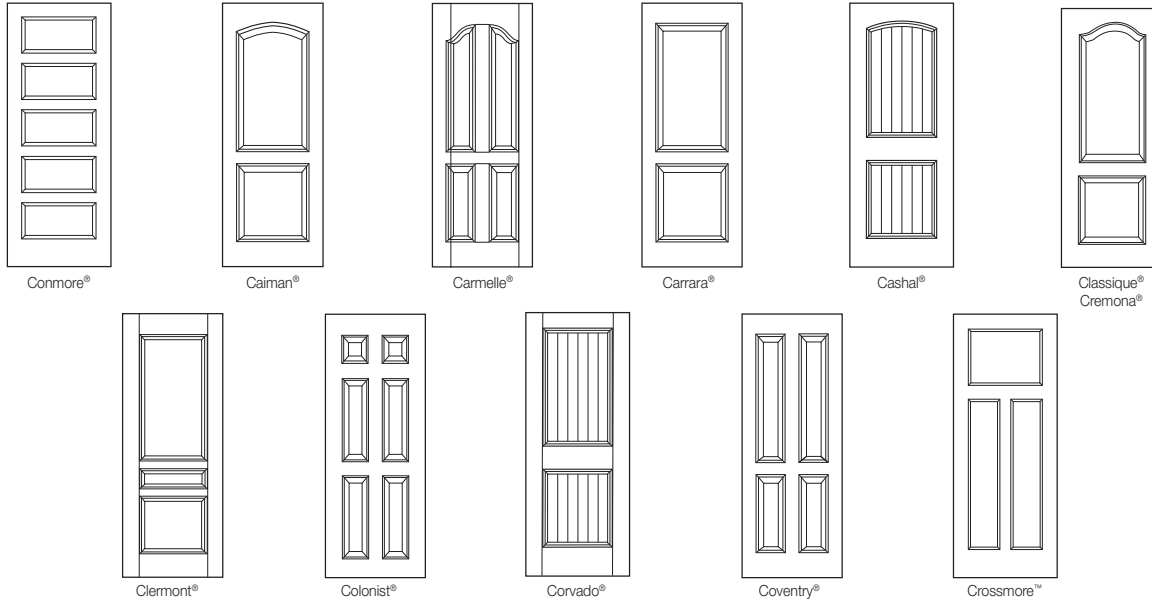

Cremona®

Smooth finish

- Bold, sleek, stylish, this door brings chic to any room.
- Available in 68", 70" and 80" passage and bifold sizes.

* Check with your supplier for availability.
Trimming CraftMaster molded doors will void the warranty.

Corvado 6'8"

Cremona 8'0"

Cashal

Get the door that endures

- Offers consistent quality throughout the home.
- Resists cracking, splitting, shrinking and joint separation.
- Long-lasting with low maintenance.

Choose CraftMaster

ENHANCE INTERIORS. Use doors as an integral part of interior design. Add style, elegance and decorating consistency to your projects.

HASSLE-FREE PERFORMANCE. No cracking or panel separation due to seasonal humidity changes means no repainting or replacing.

SUPERIOR VALUE. Compelling design and customization opportunity at a significant value versus solid wood or flush doors.

Contact Us

Since 1935, T.M. Cobb has been creating the finest interior doors. Your assurance of a fine, quality product is the T.M. Cobb commitment. It is this commitment that sets T.M. Cobb products apart.
