EnLiten™ Flush-Glazed Designs
for Fiber-Classic® Oak Collection™ & Smooth-Star® Doors & Sidelites

Simplified beauty. Resilient designs.
Designs for any entry.

At Therma-Tru, we believe your door should always welcome you home – while playing seamlessly into your style. Our EnLiten™ flush-glazed designs create striking profiles that effortlessly combine indoor and outdoor living spaces, inviting in more natural light than ever. The possibilities are endless, giving you doors that perfectly fit your lifestyle.

Why T.M. Cobb?

We can help you make a lasting first impression with an Entry door that will fit your architecture, design preference, and budget! Not to mention we have been doing this for 85 Years!

Wide Product Offering
Are you looking for a Bedroom Door, Pantry Door, Dutch Door, Patio Door, French Doors or an Entry Door? TM Cobb has what you are looking for!

Prompt Delivery and Service
We ensure your doors will be delivered on time, correct, and free of damage with our own fleet of all-weather trucks delivering daily from San Diego to San Francisco and all points in-between!

A Name You Can Trust
TM Cobb has been servicing our customers since 1935, and have over 80 years of experience and expertise in bringing the perfect door to the California market.

Quality Finishes
Finish Choice™ is our in-house finish system that creates the look and appeal you want for your entire entryway. We offer 25 paint colors that include a 2 year warranty and 9 stain colors that include a 10 year warranty.
Create a clean look with maximum views.

During manufacturing, double- or triple-pane glass is built directly into the door. This design eliminates the need for a lite frame and screw plugs, achieving a seamless, consistent finish. EnLiten flush-glazed designs offer up to a 16% increase in visible glass area as compared to conventional lite frames, creating an airy, open feeling in the home with larger daylight openings.

See the difference.

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

Seamless style. Controllable privacy.

Smooth-Star doors with internal blinds featuring EnLiten flush-glazed designs deliver simplicity and convenience with contemporary appeal. Discover attractive, durable entry solutions for around the house, including patio, side and back doors allowing for optimal daylight and outdoor views, or complete privacy.
Strength is built-in.

Our doors are durable by design. Flush-glazed glass represents a trouble-free solution that provides a superior barrier against the elements, resulting in performance you can depend on.

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This reduces the potential for air and water infiltration, among other benefits.

**Superior Sound Dampening**

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

**11% More Energy-Efficient**

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

**Withstands Winds Up to 167mph**

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

---

*Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.

**Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Impact-rated products not available.
